

## TOP SLI.DO QUESTION AND ANSWERS

Civil Service Conference 2019 (Sli.Do)

- 1) **How do we truly become paperless when we still keep hardcopies for backups? Is it more efficient to keep both? Or More workload?**

Start with small projects, for example forms and internal minutes, so that the culture within an organisation can slowly adapt to a paperless convention.

- 2) **To Tuan Rhymin, where did u get funding if it wasn't external? How do u collaborate with ministries?**

From Grants, Public Private Partnerships, and utilise resources outside the organisation (share resources)

- 3) **We are talking about data privacy and policies? Where are we since 2007 digital roadmap by egnc, with regards to data privacy? Do we have data privacy act?**

<https://www.brudirect.com/news.php?id=77302>

- 4) **'IT for Non-IT managers' course needs to be given to civil service top management for better grasps top down on tech projects.**

Essential for leaders to understand the concept, tools as well as implementation of ICT whereas more technical officers and staff will look into areas such as coding and data analytics.

- 5) **In Brunei d number of youth unemployed keep on increasing, annually thousand leave school system., Question: How IR 4.0 can reduce d number of unemployed?**

One area is through e-commerce as Bruneians are now more open to buying and selling through social media. Another is through the development of applications and systems for both public and private organisations. However, it is vital for youth who have ICT skills from schools and universities to maintain their capability and competency as future workforce will require ICT skills.
